<b>Other diameters on request.            Please tell us the requested            pipe diameter.</b>			

All dimensions in mm

### Description

Highly resilient, clean shaped, one piece pipe clamp made of zinc-coated band steel. The fastening serves for direct mounting on consoles, profil rails, walls or other. For usage with copper pipes the pipe clamp receives a glass fibre inlay. The glass fibre is resistant to constant temperatures up to 500°C. To corresponds to the requirements of sound protection the pipe clamp is delivered with an elastomer inlay on request.

### Preferable fields of application

Sanitary-, heating-, air- and climate technology

 Also STAINLESS available  
 RUST  
 PROOF
